Fluid resistant and extra soft

Our **FLUIDSAFE** child-friendly surgical mask is manufactured from high quality fabric with a super soft silk-like inner material providing excellent comfort to the wearer. The fun and exciting pattern of underwater creatures is loved by young children and is perfect for relieving their anxiety in paediatric theatres and departments. Our type IIR masks provide the highest barrier performance and their fluid resistant properties offer protection against splashing during procedures.

Our surgical masks are most suited for use in the operating theatre and adjustable head ties provide a comfortable fit for extended use.
