Lightweight, extra soft and breathable material

Our range of Comfort headwear are all made from a lightweight, extra soft spunlace fabric which offers the highest level of comfort to the wearer. Air vents in the fabric provide excellent breathability, which along with its superior comfort makes these hats perfect for prolonged use in the operating theatre.

This single-use comfort surgeon's hood offers maximum coverage of the head and neck leaving only the face visible. It is perfect for long procedures or use by persons with long sideburns or long hair.
